

Dear Parents and carers,

Next half term, our topic in Year 3 will be Vive La France. Please see the curriculum information page attached to find out more on what we will be learning about.

Ahead of the beginning of the topic, we would like to inform you about some activities, which would support your child in their learning. These homework projects are **optional** and are designed to complement our curriculum and encourage your child's creativity and critical thinking. They offer a wonderful opportunity for you as parents to engage with your child in their learning journey, fostering a collaborative environment that supports their educational development.

Should you wish to complete any of these activities, we would love the opportunity to showcase these in classrooms. Please bring in any completed projects by the last Monday of the half term.

If you have any questions, please ask your child's class teacher.
Thank you.

Project 6 – Create an art piece or sculpture to represent something that is relevant to France.

Project 5 – Create your own booklet of French phrases and words to share with a friend in the class, you could also draw pictures to help them learn each word.

Project 4 – Research some famous French people and create your own fact file about them, this could be on the computer or even a collage book – the choice is yours!

Project 1 – Design your own post card from your local area. Think about the key 'land marks' or special places you want people to know about.

Project 3 – Using your knowledge of French numbers create some maths problems using the four main operations (+, -, x, ÷).

Project 2 – Using your geography skills create a map of the local area to show to a French Pen Pal. Can you include map symbols and an eight-point compass?
