Guy Fawkes and the Gun Powder Plot

Guy Fawkes was born in 1570 in the City of York. He was a soldier and was known for being very courageous. Guy Fawkes was a Catholic who believed in God.

King James I had become King of England in 1605. He was not a Catholic like Guy Fawkes. He was a Protestant. King James wanted everyone to be a Protestant Christian like him, but Catholics wanted to be Protestant.

King James I had promised to make the world easier for Catholics but he did not and that made Guy Fawkes and his friends angry. Guy and his friends heard that King James I was visiting the Houses of Parliament on the 5th November and so they decided to plan a way of getting rid of the King. Guy and his friends found a cellar under the Houses of Parliament and hid 36 barrels of gunpowder in that cellar. The King's soldiers searched the cellars under the Houses of Parliament on November 4th and found Guy Fawkes with the barrels of gunpowder. They arrested him and his friends. The King killed Guy Fawkes and his friends for trying to kill him. It was treason.

Remembrance Day

Remembrance Day is the day when people take time to remember those who lost their lives in the First World War and all other wars since. We wear a poppy as a symbol to show respect. Poppies grew in the battlefields after the First World War.
