

WHAT WE ARE LEARNING:

Year 5 Spring 2
2022-2023

Dear Parents and carers,
Here is our topic for this half term. Please also see the Creative Homework sheet for ideas about supporting your child's Learning Journey. Have Fun! Hand in date is Monday 27th March

Wow Event/Hook: Listen to the Four Seasons in One Day and use this to create our own piece of music.

As Readers we will: Be reading factual information about how natural disasters occur.

As Authors we will: Write instructions about how to survive a flood. We will also write a news report to inform the audience of a natural disaster.

As Scientists we will: Be learning about forces and using our investigation skills to carry out practical experiments to show how forces work on different objects.

As computing experts we will: Continue to use Scratch to write and test our own quizzes. We will ensure we stay safe online by managing our personal information safely and debate the reliabilities of sources.

As mathematicians we will: Get to grips with decimals, understanding how they are related to fractions. We will then learn about calculating perimeter and area.

As Citizens we will: We will be considering how we can stay healthy. In our minds and body. We will be looking at the role of peer pressure, body image and the images on the internet and in advertising.

As Geographers we will: Locate where in the world natural disasters have happened and look at the processes involved in floods, avalanches, earthquakes and tsunamis and their effect on people.

As Musicians we will: Create our own piece of music inspired by Vivaldi's Four Seasons.

As Athletes we will: Improve our team games skills through playing basketball. We will work on hand-eye co-ordination in tennis. Falcons will continue to swim on Tuesdays.

As Artists/Designers we will: Use fabric and wax to create a Batik image linked to our topic.

As Linguists we will: Develop our French speaking, reading, listening and writing skills in relation to clothes.
