Information from "Cost of Living Help":

The conflict in the Middle East has pushed up the cost of energy, fuel and everyday goods for families across the UK. Rising costs at the fuel pumps and the tills are putting pressure on families across the country, with many opting not to travel this summer. The little joys in life matter, a family holiday, a meal out, or a day trip making memories with your kids. The government is here to help. These measures won't undo that pressure, but they're designed to make the summer of 2026 a little easier and to help families so they don't feel squeezed this summer. This is part of a wider package. The Great British Summer Savings sit alongside action on energy bills, fuel costs, wages and childcare, all part of the government's response to the cost of living pressures that global events have made worse. The Big Future- National Survey:

Message from the Children's Commissioner For England:

For the first time, hundreds of thousands of children will be eligible to vote in the next general election at age 16, the biggest change to the franchise in half a century – yet just one in five children say politicians listen to them.

That's why I'm doing my final survey, *The Big Future*, to talk to a million children, to listen to them. And to find out about what it's like to be a child today. I am asking children about the changes they want to see in their communities, their biggest concerns, and their hopes for the future. More than anything, I want to know what they think a good childhood should look like, now and in the future.

The poster is for an "Introduction to Autism" workshop. At the top, it features logos for "BEST START IN LIFE", "CHERRY TREE HILL PRIMARY SCHOOL", and "FamilyHubDerby". The title "Introduction to Autism" is in a large, bold, purple font. Below it, in a smaller purple font, is "For parents carers and wider family members of children who have or might have Autism". The text continues: "Come along and join your local Family Hubs Autism Champions and explore how autism affects, communication, imagination and interaction. Find out more about what other support there is available to you and your child locally and nationally." There are three circular images: a child with a red object on their face, a girl talking to an adult, and a child in a yellow shirt with their arms raised. Below these images, it says: "Your child does not have to be diagnosed for you to attend this workshop – Family Hubs can support you right from the start of your journey." The event details are: "Join us at Cherry Tree Hill Primary School on Wednesday 1st July 2026 - 9:15am (Please sign up at the office)". At the bottom, there is a QR code with the text "Please scan for further information" and logos for "Funded by UK Government", "Derby City Council", "Community First", and "NHS".

Is my child too ill for school?:

Please see below the NHS guidance to different illnesses and if you should send your child to school. As always if your child isn't going to be in school please let us know via phone 01332 673520 or email admin@cherrytreehill.odysseyct.org.uk

Is my child too ill for school?

Does your child have a high temperature (38°C or more)?

YES Keep them off school until it goes away.

NO Follow the guidance below.

Your child can usually go to school with a mild cough or cold if they are otherwise well. If you do keep your child at home, it's important to phone the school or nursery on the first day and give them the reason.

Should go in	Should go in (let the school know)	Seek treatment before returning to school	Keep them off (at first)
A cough, cold or sore throat Fine with slight cough or common cold symptoms, such as a runny nose, sore throat or headache, as long as they're otherwise well and do not have a high temperature.	Cold sores Encourage them not to touch the blister or kiss anyone while they have the cold sore, or to share things like cups and towels.	Impetigo They'll need treatment from a pharmacist or GP, often with antibiotics. Keep them off school until all the sores have crusted over and healed, or for 48 hours after they start antibiotic treatment. Encourage your child to wash their hands regularly and not to share things like towels and cups with other children at school.	Ear infection If your child has an ear infection and a high temperature or severe earache, keep them off school until they're feeling better or their high temperature goes away.
Threadworms Speak to your pharmacist, who can recommend a treatment.	Conjunctivitis Fine unless they are feeling very unwell. Seek advice from your pharmacist. Encourage your child not to rub their eyes and to wash their hands regularly.	Ringworm See your pharmacist unless it's on their scalp, in which case you should see a GP. It's fine for your child to go to school once they have started treatment.	Measles They'll need to see a GP. Call the GP surgery before you go in, as measles can spread to others easily. Keep your child off school for at least 4 days from when the rash first appears. They should also avoid close contact with babies and anyone who is pregnant or has a weakened immune system.
	Head lice & nits You can treat head lice and nits without seeing a GP.	Scarlet fever They'll need treatment with antibiotics from a GP. Otherwise they'll be infectious for 2 to 3 weeks. Your child can go back to school 24 hours after starting antibiotics.	Vomiting & diarrhoea Stay away from school until they have not been sick or had diarrhoea due to illness for at least 2 days (48 hours).
	Hand, foot & mouth disease If they seem well enough to go to school, there's no need to keep them off. Encourage your child to throw away any used tissues straight away and to wash their hands regularly.	Chickenpox Keep them off school until all the spots have crusted over. This is usually about 5 days after the spots first appeared.	
	Slapped cheek syndrome Once the rash appears, they're no longer infectious. Let the school or teacher know if you think your child has slapped cheek syndrome.		

Feeling worried or anxious: It's normal for any of us to feel worried sometimes. We may get a tummy ache or headache, or have problems eating or sleeping. Avoiding school can sometimes make a child's worries about going to school worse. If your child is struggling, please speak to school as soon as possible to explore available help. If your child is still struggling and it's affecting their everyday life, you should contact GP or school nurse.

To find out more, search www.NHS.uk for the specific illness or infection, or 'Is my child too ill for school?'
