

Jigsaw PSHE is a progressive scheme of learning where knowledge and skills build year on year across the programme. The table below shows how the Changing Me Puzzle (unit of work) develops in this year group, including some of the key vocabulary. Schools may adapt content to fit their policy, so please check with your child's school for specific details.

Ages 10-11	Puzzle overview: Changing Me	
	In this Puzzle, children explore self-image and self-esteem while learning about physical and emotional changes during puberty. Children reflect on identity, adolescent friendships, and the pressures linked to appearance and growing independence. They practise challenging negative self-talk and identifying trusted adults for support, alongside discussing attraction, consent, and respectful relationships. <i>This Puzzle includes non-statutory sex education in Piece 3 (conception and how babies are made). Schools should check their policy and parental withdrawal arrangements before teaching.</i>
